

Find out how you could get

£50

in vouchers to take part in our indepth research.

NHS

Richmond

Clinical Commissioning Group

R LONDON BOROUGH OF
RICHMOND UPON THAMES

HELP US UNDERSTAND HOW WE CAN IMPROVE CARE FOR YOU & YOUR COMMUNITY

We want to make sure that people in the borough of Richmond get the support and care they need and want. We want to hear what good care means to you.

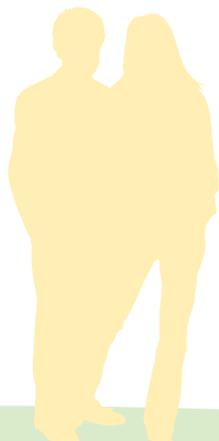

We want to hear your stories and ideas about:

keeping well and healthy

accessing the care you need

feeling independent

what happens when you are unwell

Who do we want to speak to?

We are interested in speaking to anyone who is currently receiving care and support in the borough of Richmond. We especially want to speak to you if:

you have children with care needs or you are a young person with care needs

you are over 65 and have many health and care needs

you are preparing for or recovering from a stay in hospital

you care for a person in one of these groups

2 ways for you to get involved

1. If you have a morning or afternoon for indepth research

One of our researchers will spend half a day with you to hear about your life and talk about the things that matter to you. **We'll thank you with £50 in vouchers.**

The research will take place in **July and August**. We will confirm the dates when we speak to you on the phone.

2. If you have an hour or less

You can join a drop in group which we will be running in the community **through July and August**. Contact us for more information using the details below.

To get involved call or text Claire Bradnam on **07763 785977** or **020 7250 8061** to find out more

What's this about? The research will help inform a health and social care project that is taking place in the borough of Richmond to develop better care and support for individuals and communities in the area.

Who is running it? The research is run by the Innovation Unit on behalf of Richmond Clinical Commissioning Group and Richmond Council. The Innovation Unit is a not-for-profit organisation which works with public sector organisations and communities across the UK to design better public services.

What's in it for me? If you take part in the indepth research over half a day, you will receive £50 in vouchers to thank you for your time. You'll also be involved in a project that helps other people in the borough of Richmond.

What happens with this research? It will be used to develop ways to better respond to needs and aspirations of people like yourself. Everything you tell us is confidential. Don't worry, we will never give out your name or contact details. Taking part in the research will not affect any healthcare or support you personally receive.

What's next? You can call us to ask any questions and talk further about what is involved. Or you can give your contact details to the person who gave you this flyer and we will contact you directly.
